

IRONYUN

**SECURITY
PEACE OF MIND**

**A comprehensive video
intelligence platform**

**Paul Sun
CEO**

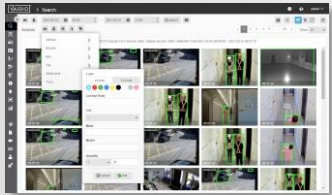

CUSTOMER'S PAIN POINTS

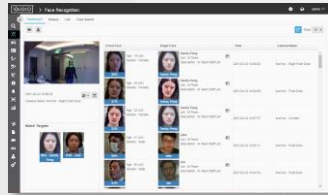

- ❑ Legacy security system: **Inefficient** and **long search time** for objects or persons-of-interests (IronYun search in seconds versus hours)
- ❑ Legacy video analytics (non-AI based) have **high false positives** and **limited** object search features (IronYun reduce 99% of false positives)
- ❑ **High operating costs** for human operators to monitor live surveillance video cameras (with IronYun, customer return-on-investment in 3 months)

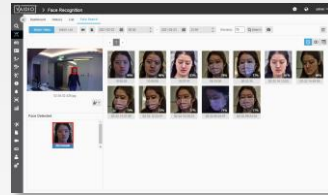

REAL-TIME AND FORENSIC VIDEO AI
