## VERMEER'S TECHNOLOGY SUITE

### 3D Georegistered Avatar Generation

AI enabled full-motion video data extraction to 3D synthetic environment

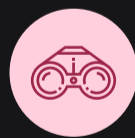

### Visual Positioning System for GPS denied areas

Our AI enabled process allows for operation in GPS denied and contested environments.

### Satellite Control

Collaborative AR/VR 3D common operating picture with command and control functionality.

### Tactical Vermeer

Intergrate our intuitive, no-touch drone GNC solution into an AR headset.

## INVESTMENT OPPORTUNITIES

The DoD's investment vehicle TACTFI allows Vermeer to raise up to \$1.7m per DoD contract. The DoD will match the amount raised (an additional \$1.7m) -- and not take any equity.
